

July 12, 2010

Dear Pocantico Hills Community,

It is the responsibility of the Board of Education to keep the community, staff and students informed as the process to appoint our next Superintendent advances.

The Superintendent Advisory Committee consisting of community members, teachers, CSEA staff and students carried out their charge of providing advice and recommendations to the Board of Education in an exemplary manner. The work of the committee in conjunction with the District Superintendent of Southern Westchester BOCES, Dr. Robert Monson, and the Board of Education has brought us to the point where the Board has selected a final candidate to serve as the district's next Superintendent.

The Board of Education has engaged the law firm of Lamb & Barnosky, LLP of Melville, NY to perform the vetting of this candidate. The Superintendent search originated as a confidential search and will remain so until the appropriate time when the Board of Education can share more information about the finalist. We appreciate your understanding in that regard.

Lastly, the Board of Education thanks you for your comments, support and most of all your patience during the search for our next Superintendent. We will keep you updated as we move forward.

Sincerely,

John Conrad
Board of Education, President
